January 15, 1973

Dear Suzanne,

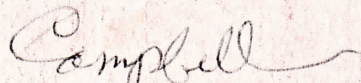

I am sorry to take so long replying to your July note. When I received it, I had not yet had a chance to catalogue my Stephenson papers. I wanted to look through what I had before I answered you, but the time has run by like electricity. Six months have passed while I was only scoring days.

My Stephenson record was written down by my grandmother, who was Eudora Virginia Stephenson and married Marcellus Lee Watking. This record was passed on to my mother in 1960 and then to me in 1971. I have selected some information I hope will interest you. This is inclosed.

Grandmother's records are rather lengthy. I am delighted that you are interested in them. Possibly you may need some information that is not covered by what I sent. If you let me know your interests, I will be glad to search the records. I might not have what you want, but will be happy to look for it.

We vacationed in Clearwater three years ago. I investigated an interesting "Watkins" name in the phone book with no luck. I didn't realize I would have struck gold under "Stephenson".

Fondly,

Campbell F. Epes, Jr.
